What are we learning?

Reading- We are learning reading strategies such as stretching/sounding out unknown words, and using the pictures in the book to decode words that we do not know. We are learning the digraphs (sh, ch, wh, th) and we are learning how to read words with silent 'e' at the end.

Math- We are measuring using non-standard measurement. We are continuing to write numbers to 20 or more. We are counting by 1's, 10's and 5's.

Science- We are learning about animals and insects that hibernate. We will explore our environment and using our 5 Senses, learn about positional words (up, down, around, over, etc.). We will also learn about the different states of matter and force and motion.

Extra! Extra!

We are going on a field trip to Discovery Place this month. Please make sure to send in money for the cost of the field trip in the exact amount. Please send as soon as possible.

~ Thank-you
 K Team
