Monthly Homework Calendar

How to Use This Resource

Use this monthly homework calendar to reinforce social, language and academic skills. Monthly homework calendars are a great option for busy families because they can choose what works for them.

First, decide how many activities you want students to complete each week. For example, I ask most families to select 3-4 activities a week, but they can choose which activities to do. They don't have to do an activity on the corresponding day. In other words, if it's April 6, but they'd rather do the April 7 activity, that's fine with me. Once an activity is done, they color in that box.

At the beginning of each month, send home a packet with the month's homework calendar and lined paper so students have appropriate paper at home to do the writing activities. As students do a writing activity, they simply date the journal page, and do the writing activity under the date. They do the next activity under the previous one. They return the completed packet at the end of the month.

I've also included a blank set of monthly templates so you can write in your own homework assignments.

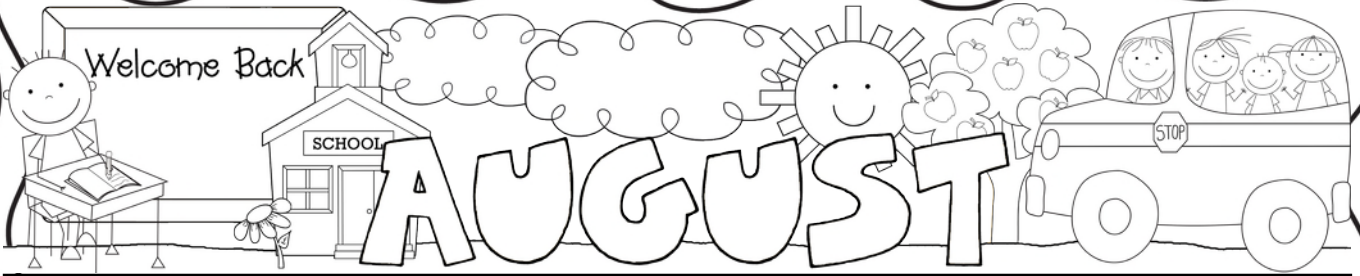

Email me with questions, comments or concerns!

The calendar features a decorative border with a scalloped edge. At the top, there are three illustrations: a girl holding a heart, a boy with a heart and a musical note, and a girl with a dog. The word 'FEBRUARY' is written in large, bold, block letters across the top. Below the title is a grid with seven columns labeled 'Sunday', 'Monday', 'Tuesday', 'Wednesday', 'Thursday', 'Friday', and 'Saturday'. Each column contains five empty rectangular boxes for recording activities.
